

Welcome to Sweetwater ISD

Thank you for visiting our district's website. As the superintendent of SISD, I want you to know that we are open to hearing your comments about how we can better serve you and this fine community. You will find that SISD is committed to helping our students experience a successful educational journey, and we understand that process is an inclusive one which values the input of parents and community members. The district website was designed with you in mind and hopefully you can find what you are searching for within our website pages

Schools were built for one purpose- for improving student learning outcomes. In order to fulfill that purpose, our role as district employees is to ensure that students are successful in the process of learning to reach their full potential. This endeavor can easily be attained when we possess a mindset in our district which defines us as servants first and foremost. Although we do receive salaries for our efforts, if our purpose isn't structured around decision-making that puts the needs of the students first, we ultimately fail as educators. This is why our foundational purpose at SISD is to ensure that every student is successful in all aspects of their learning.

I encourage you take the opportunity to truly get to know your students' teachers because they are the true heroes of this district. Without their dedication to serving the needs of our students, SISD would not have any chance of excelling. You can rest assured that when you drop off your child with one of our staff members that the best interest of the students and their needs will be of primary concern to us.

Again, thank you for getting to know us better by finding us online. Most importantly, thank you for sharing your most prized possessions with our district- your children.

Respectfully,

George McFarland, Ed.D
